

FastPunch Keystone Jack Punchdown Tool

For Easy Terminations With Intellinet FastPunch Keystone Jacks and Compatible Keystone Jacks

Part No.: **771276**

An intuitive keystone jack punchdown tool designed for faster and easier terminations

The Intellinet FastPunch Keystone Jack is designed to help you terminate your infrastructure cabling quickly and easily. With standard jacks, positioning and trimming can be tricky. You might have to re-align and cut several times to get all eight conductors right. The FastPunch keystone jack's intuitive design helps you seat all your wires properly before you cut them in one smooth motion with this tool. You save energy and gain peace of mind that you've done it right the first time. This tool also comes with a durable storage bag for easy carrying.

Features:

- Terminates keystones quickly and easily by seating and cutting all wires in one smooth motion
- Heavy-duty steel construction
- Durable, nonslip plastic handle
- Practical zippered storage bag
- UL listed
- For use with Intellinet FastPunch Keystone Jacks and compatible keystone jacks
- Lifetime warranty
